## **Ameresco site selected by Ministry of Labour for safety campaign**

**Toronto, ON. 11 August 2010.** Ontario's Ministry of Labour recently selected one of Ameresco Canada's new construction projects, F.C.M.H.S. Housing Development at 31 Lyons Street in Kingston, as one of the locations to announce the ministry's recent construction safety awareness campaign.

Minister of Labour, the Honourable Peter Fonseca, recently toured selected sites throughout the various regions of the province. The Ministry's construction safety awareness campaign started in August and the visit to the Ameresco site took place at 2pm Thursday, August 05, 2010. Also in attendance was the Minister of the Environment, The Honourable John Gerretsen, MPP for Kingston and the Islands.

The Ameresco site was selected by local ministry inspectors, because it is recognized as a safe construction site, thus setting a good health and safety example. Hosting the announcement at FCMHS Housing Development drew attention to the FCMHS's new residence, which is being constructed safely.

The announcement was reported by local station CKWS Television:
