

Over its 40-year history, Laurentian University has adopted a personal and dedicated approach to education and learning, and now offers some of the smallest class sizes in Ontario.

Laurentian University

Energy Savings Program

The University is also a key player in the development and delivery of distance education: it is the largest bilingual provider of this service in Canada. The University's expanding technologies facilitate the continuous development of new programs and services for distance education students.

Project Measures

- Feasibility study
- Lighting retrofit
- Boiler and pump replacement
- HVAC modifications
- Refrigeration compressor replacement
- Chiller replacement
- Conversion of high pressure central steam plant to low temperature hot water
- BAS upgrades
- Asbestos abatement
- Water-efficient technologies and measures

Project Highlights

- Project Costs: \$5.2 million
- Number of Buildings: 10

Annual Projected Savings

- Project Savings: \$800,000
- Project Payback: 6.5 years
